

'Cells' is a trainee-led seminar series sponsored by the Cell and Developmental Biology Graduate Program. All are welcome to attend the seminars and the accompanying social (food and beverages provided)!

Students: It's a great opportunity for you to share your exciting findings and to practice for important upcoming conferences. Talks are 15 min and please keep in mind that members of your audience may not be experts in your field – so make sure your presentations are not too specialized.

Supervisors: 'Cells' is not just for students and we encourage you to attend. The students benefit greatly from your questions during the presentations and your feedback afterwards. It's also a great opportunity to network with other CELL Program Faculty!

Please email [Amanda](#), [Sarah](#) or [Chris](#) if you have any questions/ideas.

Sign up [here](#) to present in the 2016/17 'Cells' seminar series.
